

CLIMB-IT® ULTRA ALUMINIUM TOWERS

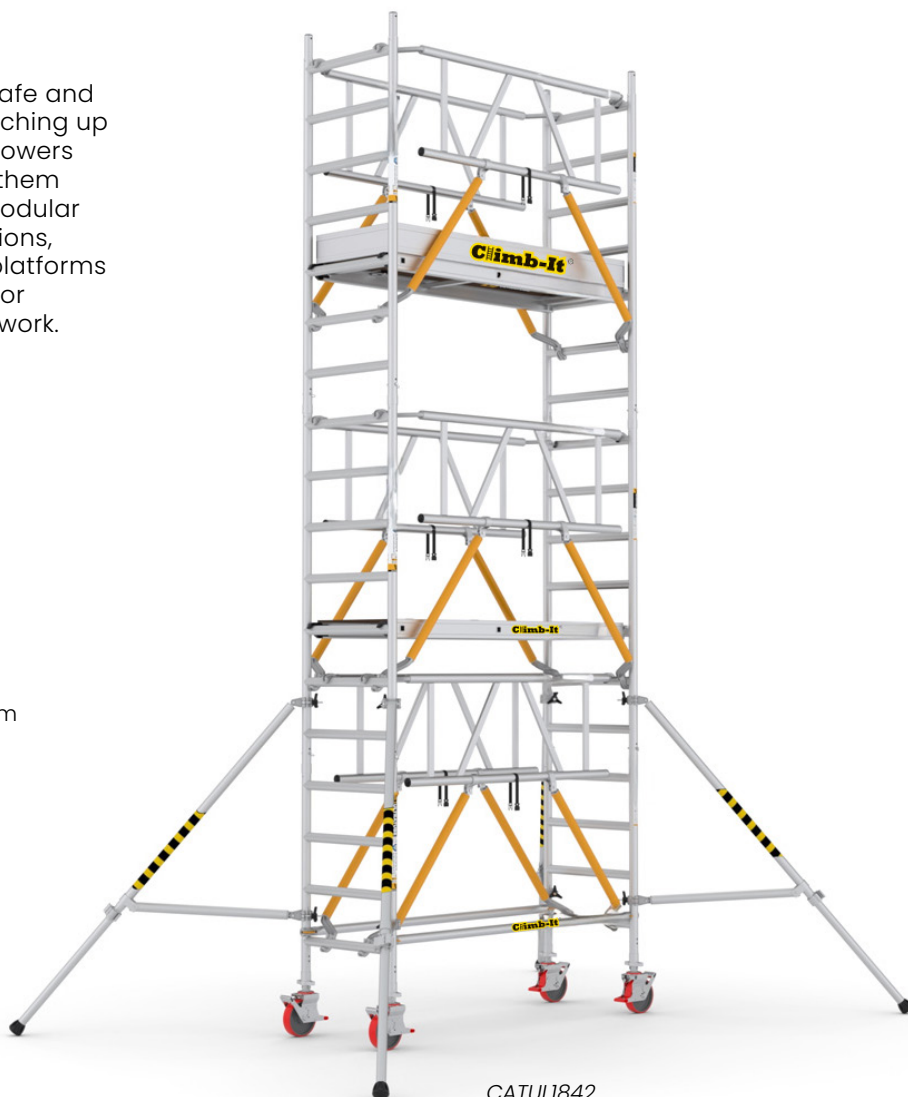

DESCRIPTION

These modular aluminium towers offer a safe and versatile solution for working at height, reaching up to 8.1 metres. Lightweight yet durable, the towers are easy to assemble and adjust, making them ideal for indoor and outdoor tasks. Their modular design allows for flexible height configurations, and they include stabilisers and non-slip platforms for enhanced safety and stability. Perfect for maintenance, construction, or installation work.

FEATURES

- ✓ **Certified to EN 1004-1:2020**
- ✓ Easy installation with its modular structure & various mounting apparatus
- ✓ Large 12mm thick non-slip plywood platform (574 x 1825Dmm) with kick board
- ✓ Stabilisers allowing for the unit to be extra sturdy when working at height
- ✓ Mobile on 4 x 125mm rubber castors which can adjust to an extra 200mm in height
- ✓ Sturdy 50mm deep rung profile for extra security when climbing
